### Types of Social Support -

**Emotional Support**: Help managing emotions, such as stress, anger, or depression. This support might include listening to problems and showing empathy.

**Tangible Support:** Help with practical problems, such as financial assistance, providing a ride to work, or help with childcare.

**Informational Support:** Providing information that helps solve a problem or overcome a challenge. This might include advice or information about helpful resources.

**Social Needs:** Fulfillment of basic social needs, such as love, belonging, and connectedness. This helps provide a feeling of security and contentment.

#### **Building Social Support** -

**Attend to your existing relationships.** Reach out to friends and family. Make it a priority to maintain your most important relationships, even when other areas of your life are busy.

**Increase community involvement.** Participate in hobby groups, volunteering, or religious groups. This is a great way to meet like-minded people, and build a new support system.

**Attend support groups.** Connect with others who are dealing with similar problems or life experiences. It can be rewarding to share your own story and provide support to others.

**Use professional support.** Doctors, therapists, social workers, and other professionals can help you solve problems that are more complicated, or too difficult to tackle alone.
